

Bradley Ayers

 bradley.ayers@keyin.com  1 (709) 219-9820  St. John's, NL

EXPERIENCE

Keyin College, St. John's NL

May 2025 – Present

Micro-Credential Support Specialist

Helping micro-credential students at Keyin College overcome any technical issues attending class on Teams, navigate generative AI, and achieve successful outcomes.

Highlights: Microsoft Teams, Artificial Intelligence, Troubleshooting

Keyin College, St. John's NL

May 2024 – Present

Peer Tutor

An opportunity to tutor software development students at earlier points in the program. I get to see other students succeed while reviewing material and further solidifying my own skills.

Highlights: Software Development, Instruction, Troubleshooting Code

[Whalebone](#), Brno Czechia

October 2022 – August 2023

Intern / Independent Contractor

Used Python to connect with APIs on projects to generate branded pages for customers and update employee information on a time-tracking tool. I made a Slack bot in python to further automate the branded pages API tool. I also used JotForm to create a workflow to expedite document approval.

Highlights: Python, APIs, Bots, Workflows

EDUCATION

Keyin College, St. John's NL

January 2024 - April 2025

Software Development (Honours)

Hybrid program comprised of lectures with a combination of solo and group projects to hone relevant skills in preparation for full-stack development.

Accolade: Academic Excellence Award

Highlights: AWS, Java (Maven & Spring Boot), Python, Databases (SQL & NoSQL), JavaScript/React

Memorial University, St. John's NL

September 2004 – May 2008

English Language and Literature, B.A.

Bachelor of arts that instilled values of critical thinking, concision, and creativity. I used this degree to travel the world and teach students learning English as an additional language. I have a biology minor and have an interest in biotechnology.

Highlights: Creative Writing (Poetry), Advanced Copy Editing, Written Communication
